### ENOUGH FOR THIRTY.

ANALYSIS OF THE FLUID WHICH POISONED

Mrs. Barnaby of Denver, Showed it to Have Contained Arsenic in Immense Quantities-Dr. Sewall Talks.

Special to the Gazette.

DENVER, Col., May 2 .- Professor Sewall has completed his analysis of the fluid that poisoned Mrs. Josephine Barnaby. He has not succeeded in finding a name for the tincture. He has, however, made some rather startling discoveries and has found arsenic in immense quantities.

"Why, there was arsenic enough in that bottle, said Professor Sewall, "to have killed thirty people," "There was brought to me," he con-

tinued, "about nine and one-half ounces of the fluid, but the bottle contained, I should say, in round numbers about twelve ounces in all. In my analysis I used only about one-half of what was brought to me. I dis-tilled ten cubic centimetres and found merely a trace of alcohol. I found as a resuit of the analysis that about 2 per cent of the fluid was arsenic. There were in the twelve ounces about one hundred grains of arsenic. I have not been able to determine what the solution is, but from the quantities of arsenic, I found the fluid must be one of the sikalis. This was the ordinary arsenic of the shops, two parts of arsenic and three of oxygen—what is known as 'arsenic of the shops.' Metalic arsenic is not soluble. The fluid was handed me on April 21, and 1 finished my analysis last night. It took me about 15 minutes to satisfy myself. I tried the preliminary test, Ranche's test—that is this: I placed some polished copper in the fluid, and if there is arsenic in it, the arse-nic becomes alloyed with the copper, then after it is heated the arsenic appears in oc-

show them to you, but afterward I sub-jected the fluid to all the tests known, and in this little tube here is the pure metal iteif. The liquid was some aromatic tinct-ire. It had the flavor of cubebs or some-hing of that kind, but I could not tell what it was. I may be able to tell yet."

Dr. Sewall is the man who made the analysis in the famous Millington case. He made an indirect reference to that case last evening, when he said during the conver-sation, that it was a good deal easier to find

tahedral crystals upon the metal, and they were beautiful crystals, some of the hand-somest crystals I ever saw. I wish I could

The professor declined to take the re-sponsibility for the analysis of the viscera of Mrs. Barnaby, and that business was turned over to the charge of Professor Hedden, but the analysis is being performed n Professor Sewall's laboratory, and he has

arsenic where it was than where it was

### FARMERS WITH NERVE.

Terrell Wants the Farmer With Nerve and Backbone to Take Hold of the

Terrett, Tex., May 3.-We are still advertising for 10.000 farmers with nerve and disposition to work, men of small means, who know how to farm and live to grow up with the country and make Kaufman county the grandest the whole state. There is here of the whole state. There is soil, diversity of opinion, mainly from t states, but nearly of the globe has the people are lawin edumorals lovely and the goose hangs high up in the atmosphere. People are generally having a pretty fair time, and prospects are excelent. The only thing in the way is the thousands of acres of land-bad, good, very good and extra fine-lying idle, having never felt the energizing touch of the hoe or plow, but in lazy idleness does nothing but yield grass for the hay man or wood for the wood merchant.

We want the soil to get a move on itself and produce something that will help to feed and clothe the beings of earth, and to do that we want the energetic small farmer, 10,000 strong, to tickle old nature into lovely, haughing energy, shake quietude from her lap and get up and dust in a manner to make the balance of the country look this way and wish they were here to join in the grand chruses of prosperity.

Terrell is not fishing so much after a big boom, but we want to catch small fish mainly and get them so interested in this section; that every one will be a living ection that every one will be a living noving power behind the car of progress that will roll up grand and substantial re-sults for Terrell, Kaufman county and

Write us a letter and tell us what you want. We want 10,000 farmers with small means, large means or no means at all, pro-vided there is honesty and energy to take the place of capital.

### CENTER OF POPULATION.

The Result of Some Figures on the Cen sus of 1890. Calculated from a Reckoning of 1880.

ABILENE, TEX., April 18, 1891.

Editor Reporter: I have just been figuring on the census of 1890 and find the following interesting fact

concerning Texas: 1. The center of population in 1880 was it latitude 31 deg 32 min., longitude 96 deg. 40 min., or about eight miles west of Groesbeck in Limestone county, In 1800 the center of population moved about thirty miles northwest into Hill county, six miles

south of Hillsboro or about latitude 31 deg CHAS. SCHEUBER, Vice-President.

Sit Boxes, Fire and Burglar Proof, for Rent.

Mee J. C. McCarthy, C. M. Crane, T. T. D. Andrews, Chas. Scheuber.

Max ELSEB, Cashier, South of Hillsboro or about latitudes 31 deg. 34 min. Inongitude 91 deg. 3 min. This is approximate as we had no data from the certsus of 1890, giving the population of minor civil divisions of counties, and we have depended on an ordinary school atlas for our latitudes and longitudes.

2. We find that the census gives a population of only \$7,179 to all that section of Texas west of a line drawn south along the west line of Wichita. Archer, Young Ste-

west line of Wichita, Archer, Young, Stephens, Eastland and Brown counties, and north of latitude 31 deg, 30 min, including the whole of El Paso county, ail of which embraces an area of 79,440 square miles or a little more than one person to every 640 series of land

3. It is far more tedious and laborious to-calculate the center of population of Texas than to calculate the center of population of than to calcalate the center of population of the United States, as in the former we have to deal with 244 counties, while in the latter only fifty-one states and territories enter into the computation. The labor is in the proportion of fifty-one to 244 or more than four times as great. It might interest a few of your readers to know how this calculation is made, but perhaps a majority care mothing for it and therefore I do not give the modus operandi. Yours, I do not give the modus operandi. Your etc., C. R. DUDLEY.

GIVEN FIVE YEARS.

### Dick Conningham, One of Mart Copeland's Partners, Sent Up from Waco.

Waco Tex., May 3.—In the district court vesterday Dick Cunningham was given five years for horse theft. He and Mart Copeland were charged with the theft of a pair of horses belonging to Finnie Williams in this county. Copeland is a noted criminal. An account of his conviction on the same charge was given in The GAZETTE a few days ago. Copeland pleaded guilty, but Cunningham fought the case and conviction

It stands alone. Pearline-the only perfect washing medium. It cleans your house or your hands-it washes your finest dothes or your carpet. It does it easily and thoroughly Nothing can be harmed by it, labor is les-sened by it, it saves time, money, and wear. Millions use it-almost every soap maker is erying to imitate it, Pearline is better than soap-soap is better than nothing-there's nothing better than Pearline.

WANTED -- DWELLINGS.

Every family wants a dictionary. Most amilies want ten dollars also. Some families want the ten dollars also so The Gazette has the best reprint of the Original Webster's Dictionary. It has the best print, the best binding, the nest words, the best illustrations.

With the Weekly GAZETTE one year it. costs only \$4; with the Daily one year only

Regular subscribers to THE GAZETTE can secure a copy of this dictionary for \$3.00, ent by express, or for \$2.50 delivered at our Sou are invited to call at our office and inspect the book itself, and see how much superior it is to other cheap dictionaries,

anyone wanting a good diction-Very respectfully, W. B. Wess Postmaster.

Corner graded struct.

Corner graded struct.

DEAR SIR-I received the Webster's dictionation of the first was very nice, and I like The GAZETTE also.

Dear Gazette

Dear Gazette.

After having been almost a constant reader of THE GAZETTE and its predecessors for eleven years, I feel that I cannot keep house without it, and as I received your premium dictionary a few days since, am of the opinion that as an educator you are keeping up with the times.

Accept my thanks for the book and best wishes for your future success and that of Texas. Respectfully.

T. A. L. SCOTT. KOPPERL, TEX., Jan. 31, 1891. The Democrat Publishing Co., Fort Worth,

Thex.—

Tex.—

GRNTS.—I regard the dictionary as being worth 85, and would pay that price if I could not get one for less. It is a better book than I expected to get for the money. No one can afford to be without the Daily GAZETTE and dictionary at the price. Hoping double success to your paper, am respectfully.

J. A. COTTINGHAM.

FORT WORTH, TEX., Feb. 3, 1891. The Democrat Publishing Company, Fort Worth.

dictionary as a premium with The GAZETTE.

As a book of reference and instruction it is invaluable. And the price, is for it and one year's subscription to the Weekly GAZETTE, is but nominal when taking into consideration its size and value. Yours etc.
